ITER Council endorses

china

eu

india

japan

korea

russia

usa

ITER is also a first-of-a-kind global collaboration. Europe is contributing almost half of the costs of its construction, while the other six Members to this joint international venture (China, India, Japan, the Republic of Korea, the Russian Federation and the USA), are contributing equally to the rest. The ITER Project is under construction in Saint-Paul-lez-Durance, in the south of France.

To see a gallery of pictures from the ITER Council meeting, follow this [link](#).

For more information on the ITER Project, visit: <http://www.iter.org/>
