Subject: Market Survey for Repair of the Vacuum Vessel Sector Field Joint Bevels at IIR Site

Dear Sir/Madam,

The IIR Organization (IO) launches a Market Survey and requests information from companies. Please note that this is not a Call for Nomination.

usa

You will find enclosed the Technical Description (draft of the Technical Specifications ref SC49AE) related to this Market Survey (Annex I) and associated documents. Note that this specification addresses the current IO baseline repair solution. Other solutions are under investigation but will still require the same technology and expertise. Alternative VV sector orientations may be possible. Suppliers should present their alternative proposals, if any, under section 6 of the Questionnaire. Advantages of any alternative proposal should be clearly explained.

I enclose you 6 questionnaires. E Mail: io@iir.org Ad c

permits required to work on French territory. The contractor would be required to produce a Specific Health & Safety Protection Plan (PSPS). More generally, the Contractor will be bound to the IO Site Management regulations. Please find further requirements for work at IIR Site in Appendix 1 (at the end of this letter), please note this is not an exhaustive list of such requirements but rather intended to provide an overview of key considerations. The tentative schedule for start of this repair activity at IIR site would be July 2023. This would require that all preparatory work to qualify the repair has been validated, that the necessary conditions for visas and work permits have been fulfilled by the contractor and that contractor would mobilize their suitably qualified technical teams and equipment at site to be ready to commence by that date.

With this letter, we invite all potential companies, institutions or entities from IIR Member States to participate to this Market Survey through the questionnaire (Annex II).

We kindly invite the Domestic Agencies to publish this Market Survey on their websites or through other advertising methods, which will help to retrieve the requested information from a maximum of potential candidates

Please return a completed questionnaire, no later than 23rd January 2023 to the following email address jessicapilla@iter.org copy to williamdecat@iter.org

Yours sincerely,

**William DECAT
