

PRIOR INDICATIVE NOTICE (PIN)

OPEN TENDER SUMMARY

IO/21/OI/700107/EBT

Nuclear Analysis framework contract

Abstract

The purpose of this summary is to provide prior notification of the IO intention to launch a competitive Open Tender process in the coming weeks. This summary provides some basic information about the IIER Organization, the technical scope for this tender, and details of the tender process for the provision of nuclear analysis services.

1 Introduction

7 Experience

The tenders shall demonstrate their technical and industrial experience related to the scope of work as detailed in the technical specifications. The detailed technical evaluation criteria will be informed to tenders at a later stage under RFP at IPROC.

8 Candidature

Participation is open to all legal entities participating either individually or in a grouping/consortium. A legal entity is an individual, company, or organization that has legal rights and obligations and is established within an IIER Member State.

Legal entities cannot participate individually or as a consortium partner in more than one application or tender of the same contract. A consortium may be a permanent, legally established grouping or a grouping which has been constituted informally for a specific tender procedure. All members of a consortium (i.e. the leader and all other members) are jointly and severally liable to the IIER Organization.

In order for a consortium to be acceptable, the individual legal entities included therein shall have nominated a leader with authority to bind each member of the consortium, and this leader shall be authorized to incur liabilities and receive instructions for and on behalf of each member of the consortium.

It is expected that the designated consortium lead will explain the composition of the consortium members in a covering letter at the tendering stage. Following this, the Candidate's composition must not be modified without notifying the IIER Organization of any changes. Evidence of any such authorization shall be submitted to the IO in due course in the form of a power of attorney signed by legally authorized signatories of all the consortium members.

Any consortium members shall be registered in IPROC.

9 Subcontracting Rules

The Contractor shall not subcontract any part of the Services under this Framework Contract and any Task Orders.
