

To: Potential bidders

Date: 26 April 2021  
Subject: Request for Information

Dear Madam/Sir,

The ITER Organization (IO) intends to launch a Call for Tender for the provision of Global Maintenance Services. In this regard, we would like to request information in order to help us better define the tender strategy.

The IO presented two options for the tender strategy in the last RIBM. You can find the details of the two options as well as the scope of the Contract in the attached presentation.

The main purpose of this Request for Information is for the IO to evaluate the various possible options as well as the market information.

In this regard, we highly appreciate it if you can answer to the questions in the attachment and return it to the Procurement Officer in charge by email by 11 May 2021.

The IO may invite you to follow up remote meetings after receiving your responses to this Request for Information.

Yours faithfully,

Christophe Dorschner  
Head of Procurement and Contracts Division
